

About FABPSA

FABPSA is a non-profit organisation committed to establishing and managing French/Australian bilingual programs in public schools in Perth."

The primary goal of this project is to offer a bilingual and bicultural education that encloses both French and Australian cultures for pre-primary and primary school students. The program will be recognized by the Australian education system.

Perth has no equivalent program, although several French-Australian schools in the Eastern States have achieved successful operations. In 2022, FABPSA conducted a comprehensive survey indicating that nearly 175 children may enrol in such a program if it were to commence in 2024.

This initiative receives active support from the French Embassy and the Western Australian Department of Education (DOE).

The target timeline for student enrollment to begin is 2024, with the program's official commencement scheduled for February 2025.

Why take part in our project?

Be part of a historical event and allow Perth public schools to host the FIRST French-Australian Bilingual Program in WA.

Open to francophone and non francophone, this program would facilitate students' cultural and language learning in an authentic setting, consolidating Australia's identity as a truly multicultural society.

It would promote language diversity and intercultural understanding and increase awareness about Australia's history and culture. The program would align with the Department of Education's strategic goals of promoting innovation, diversity, and equity in education and improving students' literacy and numeracy skills.

It would allow students to develop key competencies such as critical thinking and communication skills, enhancing their employability in a globalised economy.

At FABPSA, we believe that becoming bilingual at a young age is an incredible gift.

Numerous similar programs already exist throughout Australia.

With your help, FABPSA can make it happen for the children in Perth, Western Australia.

Alors, POURQUOI PAS ?

Why do we need you?

*A preliminary budget has been developed, assuming a February 2025 opening with 30 students.
(Kindy and Pre-Primary only focus for the first year).*

It was also assumed that for the first year, FABPSA would bear the recurring costs of teaching, which the family's participation cannot cover.

As the program gains recognition and surpasses the student threshold, necessitating additional teachers and educators, the school will be responsible for covering education costs.

Your contribution will go towards some of the following items on the next page (non-exhaustive list), which are all equally important to successfully implementing this program at our partner school.

Why do we need you?

Your support is crucial for various aspects of our mission, including:

- Supporting the school in accommodating the increasing number of students (e.g. infrastructure)
- Contributing to the 1st year teaching cost (see preliminary budget)
- Providing materials in both languages & creating teaching and learning resources in line with the WA curriculum
- Offering professional development in bilingual education for our educators
- Arranging incursions and excursions in both languages
- Covering operating and logistics costs & much more...

FABPSA Preliminary Budget

This budget is for the first year only assuming a February 2025 opening with 30 students (Kindy & Pre-primary), considering that FABPSA will cover the remaining cost of teaching.
